

Reversible
Apron Pattern
BY *Bonnie
Christine*

Supplies:

- 1 yard each of two coordinating fabrics (pictured is timeless rosewood and sweet nostalgia antique from the reminisce fabric line)
- Scissors
- Rotary Cutter and Ruler (or just scissors if not available)
- Sewing machine & thread

Directions:

Cut two apron panels, using the pattern supplied, one from each 1 yard piece of fabric. If your fabric is directional, be sure to cut out the apron with your pattern facing the correct direction.

Cut four apron strings from the length of each 1 yard piece of fabric 1.5" wide (8 total).

Place two apron ties of contrasting colors right sides together and stitch around two long sides and one short end. (Leave one end open for turning.) Turn right sides out and press well. Set aside.

Place the apron pieces right sides together and pin together. Tuck the apron ties inside the apron, with the open, unsewn ends extending in the seam allowance. Placement is on both sides, 1/2" below the cut edge of the apron's top edges and at the tops of the shoulders (see pattern for placement).

Stitch around the entire apron, leaving a 4" opening for turning on one of the sides, below the tie. Seam allowances are 1/4". Turn the apron right side out and press well.

Tip: using a point turner in the corners will ensure sharp points.

Machine or hand stitch the opening on the side closed.
